

Dhruv Jain

Growth Marketer | Paid User Acquisition — Google Ads, Meta Ads & Apple Search Ads

Ahmedabad, India • +91-9588290187 • dhruvjaindp03@gmail.com • linkedin.com/in/dhruv-jain-analyst

PROFESSIONAL SUMMARY

Growth marketer with over a year of hands-on experience managing paid user acquisition across Google Ads, Meta Ads, and Apple Search Ads for a B2C portfolio of 30 apps and 80–100 concurrent campaigns, delivering a 30% increase in ROAS and a 15% reduction in CPI/CPA. Comfortable owning campaigns end-to-end — setup, creative testing, budget pacing, and optimization — and translating audience research, competitor analysis, and funnel data into growth strategy rather than guesswork. Skilled in conversion tracking (GA4), dashboarding (Power BI, Looker Studio), and hypothesis-driven A/B testing, with working SQL and Python for deeper analysis. Comfortable adapting the same rigor to B2B and SaaS contexts.

CORE COMPETENCIES

- Google Ads & Meta Ads Management
- Campaign Setup, Optimization & Scaling
- A/B & Creative Testing
- Funnel & Customer Journey Analysis
- CPL, CPI, CTR, ROAS & Conversion Reporting
- Power BI & Looker Studio Dashboards
- Apple Search Ads / ASO & Keyword Research
- Budget Pacing & Allocation
- Audience Research & Competitor Analysis
- Conversion Tracking (GA4, UTM, Pixel/Tag Setup)
- Trend & Anomaly Detection
- SQL & Python for Analysis

PROFESSIONAL EXPERIENCE

Data Analyst / Growth Marketer — Pixster Studio

Ahmedabad, India • Oct 2025 – Present

- Plan, run, and optimize paid acquisition campaigns across Google Ads, Meta Ads, and Apple Search Ads for a 30-app, 80–100-campaign B2C portfolio, owning budgets and scaling decisions across channels.
- Diagnosed a Target ROAS campaign that had stopped spending due to an overly restrictive target — refreshed creative assets and adjusted the tROAS setting to restore healthy spend delivery and performance.
- Ran structured creative testing for Meta Ads install campaigns across multiple apps, pausing high-CPI variants within ~1 week and reallocating budget to scale variants showing early positive response.
- Built Google Ads user acquisition from scratch for a new app launch, testing multiple markets in parallel and identifying a lead market with strong Day-0 payback at a workable CPI.
- Used Mobile Action and SplitMetrics for Apple Search Ads / ASO keyword research — studying competitor keyword bidding and volume data to plan keyword-targeted and discovery campaigns.
- Track CPL, CTR, conversion rate, and ROI weekly using trend and anomaly detection to flag underperforming campaigns early — contributing to a 30% increase in ROAS and a 15% reduction in CPI/CPA.
- Set up and maintain conversion tracking and funnel analysis in GA4, proactively flagging tracking issues.
- Build performance dashboards in Power BI and Looker Studio, cutting manual reporting time by an estimated 90%.
- Conduct audience and competitor research to inform targeting and creative strategy; present findings through structured weekly reports to leadership.

Market Researcher — OHSM

Remote • May 2025 – Oct 2025

- Built and validated a 10,000+ record prospect/audience database using web scraping, workflow automation (n8n), and an LLM-based sourcing model, producing a clean, decision-ready dataset for outreach and market-trend analysis.

PROJECTS

Global AI Adoption Dashboard (Power BI, DAX) — Executive-style dashboard analyzing adoption trends, revenue impact, and workforce shifts across 12+ industries, with interactive drill-throughs and dynamic KPI cards.

Stock Market Predictive Analytics (Python, Pandas, Scikit-Learn) — Tested hypotheses on price-movement drivers and built predictive models with KPI dashboards for non-technical stakeholders.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications — Christ (Deemed to be University), Bengaluru (2022–2025)

Professional Certificate in Data Analysis — Udemy (SQL, Excel, Python, Power BI, Statistical Analysis, Business Reporting)
